REQUIREMENT FOR UNITY OF INVENTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 1-8, drawn to an isolated polynucleotide molecule comprising a nucleic acid sequence encoding a bNK1r polypeptide.
 - II. Claims 9-11, an isolated gNK1r polypeptide.
 - III. Claims 12-14, drawn to a method for identifying a chemical compound capable of modulating the activity of gNK1r.
 - IV. Claim 15 and 16, drawn to a pharmaceutical composition comprising a gNK1r modulator and a method of making such a composition.
2. The groups of inventions listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Invention Groups I-IV lack unity of invention because even though the inventions of these groups require the technical feature of an isolated polynucleotide encoding a gNK1r polypeptide. This technical feature is not a special technical feature as it does not make a contribution over the prior art in view of Stout et al.

(*Annu. Rev. Pharmacol. Toxicol.* 41:877-906, 2001). Stout et al. teach a gerbil NK1r polypeptide (page 892, Table 1). Therefore, the shared technical feature does not make a contribution over the prior art

Accordingly, Groups I-IV are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept. Thus, unity of invention is lacking and restriction is appropriate.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (I).
